DISCOVER INDULGENCE

BATHS, SPA BATHS & SHOWERS

CATALOGUE 2019

 PROUDLY AUSTRALIAN OWNED

DECINA IS 100% AUSTRALIAN OWNED – AN AUSTRALIAN MANUFACTURER & SUPPLIER OF BATHS, SPA BATHS & SHOWERS, SINCE 1989.

- Decina has been designing, manufacturing & innovating bathroom ware for over 30 years, creating a comprehensive range of baths, spa baths, showers, toilet suites, basins, towel warmers, tapware & accessories for every style & budget. Find your inspiration at [decina.com.au](https://www.decina.com.au)
- All Decina products are manufactured to stringent Australian Standards, so you can be assured our products are consistently safe & reliable.
- Decina's design & manufacturing teams are experts in acrylic bath & spa bath technology with decades of experience. This combination of skill, premium materials, innovative design & rigorous testing, creates bathroom ware that is superior in style, strength & safety.
- When you choose Decina, you join leading architects, designers & builders who continue to select Decina as their first choice for hundreds of prestigious projects across Australia & overseas.
- Every Decina product is backed with a competitive warranty, for a long lasting, luxury bathroom.

Thank you for choosing Decina.

AUSTRALIAN STANDARDS

All products manufactured & sold by Decina comply with the following Australian Standards:

BATHS AS 2023/1995 | SPA BATHS AS 3861/1991

SHOWER TOWERS AS 3718/2005 | SHOWER SCREENS AS 1288/2006 | SHOWER BASES & SHOWER WALLS AS 3588/1996

Decina Bathroomware Pty Ltd | ABN 39 845 084 033

SOME THINGS YOU MAY LIKE TO KNOW

Decina's premium selection of inclusions & additional features allow you to indulge in & customise your bathroom like never before...

All Decina baths/spa baths can be ordered with an optional, exclusive Decina chrome pop-up plug, with an easy to clean, removable jewellery & hair catcher.

All Decina Dolce Vita spa baths feature fingertip adjustable jets, available in your choice of chrome, white or black, with a thin stainless steel trim.

A selection of Decina's baths/spa baths can be fitted with an optional overflow outlet which takes any excess water back to the waste.

A **BASE FRAME** is a factory fitted, galvanised steel base support frame with adjustable, self-levelling legs. Available for order with most Decina baths/spa baths & an included feature on all Dolce Vita spa baths, it makes for immediate, on-site installation.

EZI FRAME is a separate steel base support frame with adjustable, self-levelling legs. Available for order with select Decina baths/spa baths, it is simply glued on-site to the bath base.

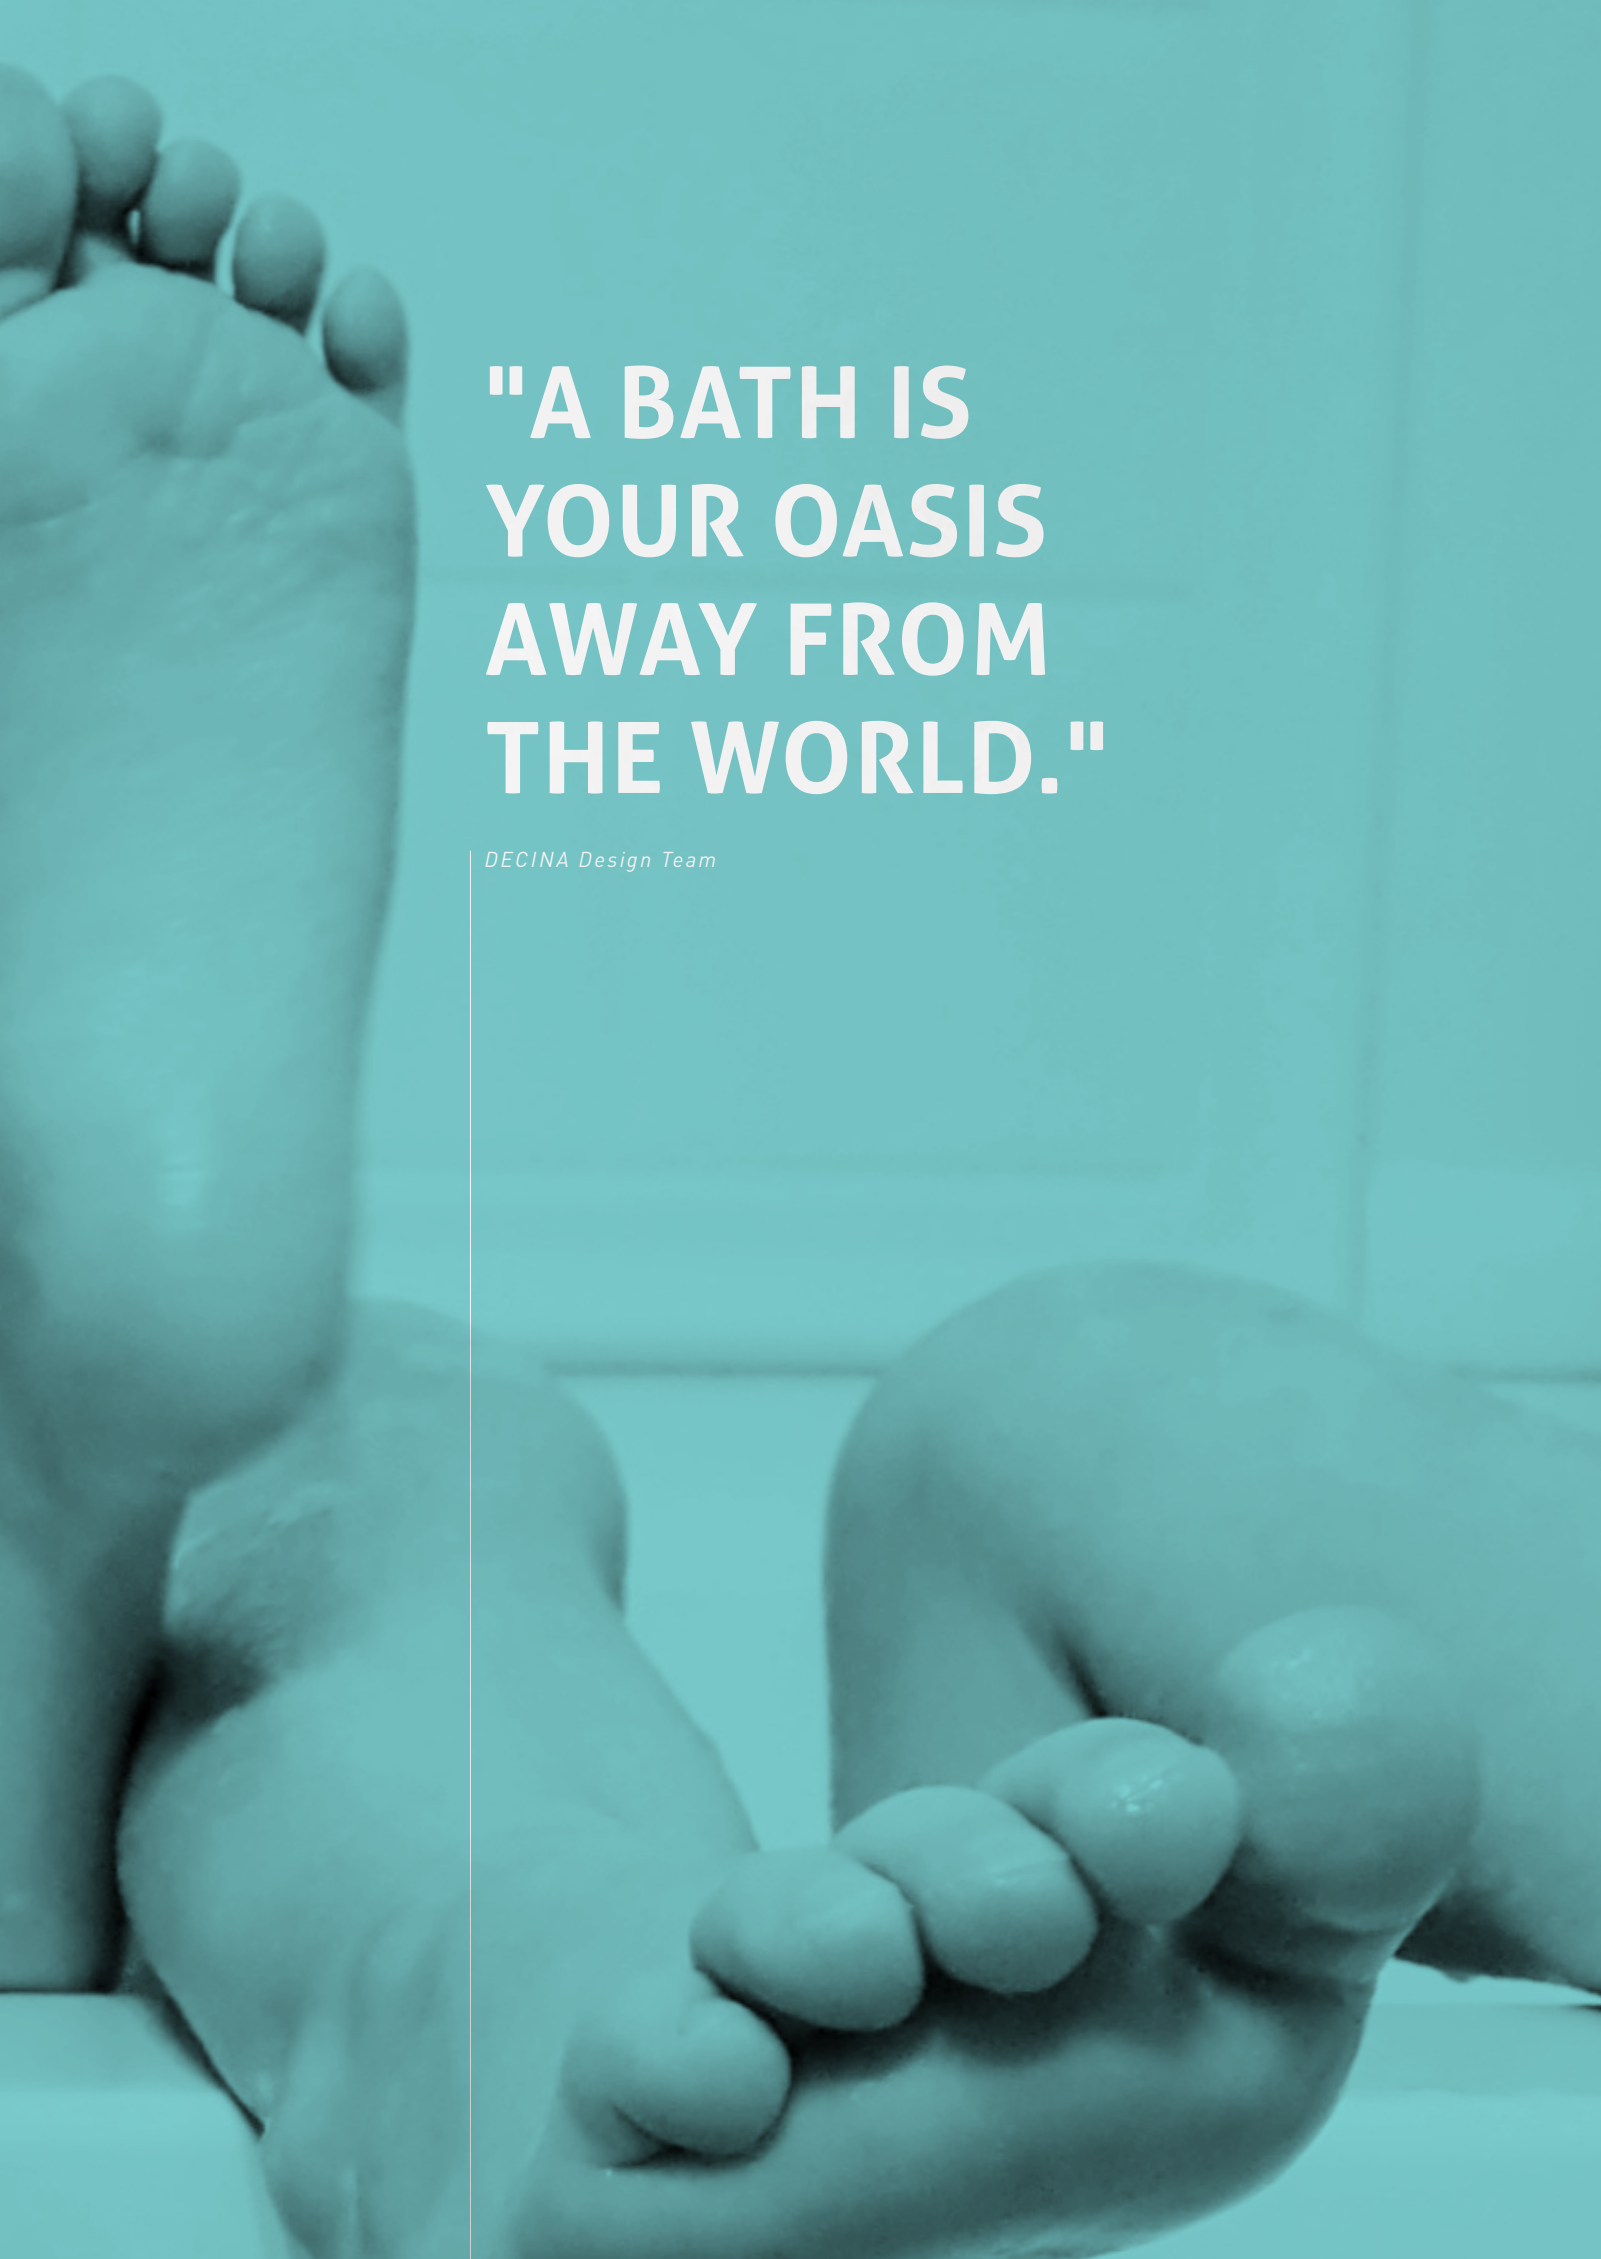

EZI FEET are self-levelling feet, available for order with select Decina inset baths/spa baths. Simply screw them into the factory fitted support feet on-site & pull the string to level the bath onto the floor.

EZI CLEAN is an exclusive coating on all Decina shower screens. This unique, premium glass treatment prevents the build-up of soap scum reducing cleaning time considerably.

Made in Australia 

All Decina spa baths are **MADE IN AUSTRALIA** & hand tested before dispatch & delivery.

**"A BATH IS
YOUR OASIS
AWAY FROM
THE WORLD."**

INSET BATHS & SPA BATHS

Inset baths & spa baths are the ideal space saving solution, perfect for bathroom renovations & shower bath applications. Decina's innovative four sided tile bead allows an inset bath to be integrated into a tiled wall to create a flush, water tight finish.

ISLAND BATHS & SPA BATHS

As the name suggests, an island bath can be set away from walls, creating an 'island' style focal point, while the tiled edge of the bath hob is functional & can be used for seating or storage.

All Decina's inset & island baths/spa baths can be fitted with an optional overflow outlet, which takes any excess water back to the waste.

A **BASE FRAME** is a factory fitted, galvanised steel base support frame with adjustable, self-levelling legs. Available for order with most Decina baths/spa baths & an included feature on all Dolce Vita spa baths, it makes for immediate, on-site installation.

EZI FRAME is a separate steel base support frame with adjustable, self-levelling legs. Available for order with select Decina baths/spa baths, it is simply glued on-site to the bath base.

EZI FEET are self-levelling feet, available for order with select Decina inset baths/spa baths. Simply screw them into the factory fitted support feet on-site & pull the string to level the bath onto the floor.

SHOWER COLLECTION

Decina's shower collections are recognised as offering the best value & quality products, with a number of installation applications to suit your needs.

- Seals & strips are anti-fungal & UV resistant
- Screens feature an easy install gasket wall system
- Wall channels have caps for easy cleaning
- Screen doors feature a drip-less strip & magnetic close seals

EZI CLEAN is an exclusive coating on all Decina shower screens. This unique, premium glass treatment prevents the build-up of soap scum reducing cleaning time considerably.

Decina is synonymous for innovation & this passion has led to the development of 3 exclusive bath & spa bath base support installation systems. These all feature self-levelling feet, protect against the bath warranty & simplify the installation process by eliminating the need for further support such as expensive steel framing, a wet bed slurry or *mortar bed.

Almost all Decina baths & spa baths come with or can be ordered with 1 of the 3 suitable base support systems.

BASE FRAME

The BASE FRAME is an optional structural bath support frame, that is suitable for nearly all Decina bath & spa bath models (*over 1400mm in length*) & comes as standard on ALL Dolce Vita spa baths. This galvanized steel frame is factory fitted & fiberglass bonded to the base of the bath, making it ready for immediate on-site installation.

We recommend all baths & spa baths ordered with an overflow should be fitted with a BASE FRAME for elevation.

- Height adjustable feet add 90-120mm
- Time saving, easy installation

[RECTANGLE STEEL BASE SUPPORT FRAME TAP002](#)
[CORNER STEEL BASE SUPPORT FRAME TAP004](#)

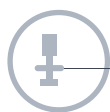

EZI FRAME

The EZI Frame is an optional structural bath support frame, that is suitable for select Decina rectangle & oval baths & spa baths (*between 1500-1800mm in length*). This steel frame is adhered to the base of the bath on-site, by the installer or builder. At least 48 hours drying time is required for the adhesive, before the bath can be installed & the adjustable self-leveling feet are simply screwed down to touch the sub floor.

- Height adjustable feet add 55-170mm
- Low cost, easy & time saving installation

[SMALL \(end waste 1500mm baths\) EZF001](#)
[LARGE \(end waste 1600/1700/1800mm baths\) EZF002](#)
[CENTRE WASTE \(small centre waste baths\) EZF003](#)
[CENTRE WASTE \(large centre waste baths\) EZF004](#)

EZI FEET

EZI FEET are an optional support system suitable for select Decina inset baths & spa baths. These adjustable self-leveling feet, offer an easy, on-site installation process, they simply screw into the factory fitted support feet in the base of the bath & then by pulling the string they are wound down to touch the sub floor.

- Height adjustable feet add 50mm-120mm
- Low cost, easy & time saving installation

[EZI FEET \(pack of 5\) EZF005](#)

*If being used as a shower bath installation an additional mortar base support is required between the frame & the floor.

SPA PUMP NOTES

- The Spa Pump does not fit directly underneath the baths perimeter (with the exception of freestanding Spa Baths)
- The Spa Pump should be easily accessible for maintenance & positioned either,
 - Under the bath rim (with access through the wall from the outside or adjoining room)
 - Taken through & fixed to an external wall housed in an adjoining room, cupboard or within the bath hob
- The pump should be no more than 1.2 metres from the spa, with no direction changes. The spa pump pipework finishes flush with the edge of the bath, any pumps positioned outside the perimeter of the bath will need additional pipework to complete the installation on site. Decina provides 2 elbows, 300mm of pipework, loose couplings & barrel unions. If you need to install the pump more than 1.2 metres from the spa bath you will need to nominate the length of the extension pipework required.
- The height of the pump needs to be the same level as the finished spa bath pipework, so the spa system will prime and self-drain.
- Waste positions cannot be changed
- The Spa Pump controls will always be at the front, unless indicated below

- PLEASE CIRCLE **A**, **B**, **C** or **D** ON THE DIAGRAM BELOW TO INDICATE YOUR REQUIRED PUMP POSITION.

- SHOWER HEAD POSITION (if applicable)

- SPA PUMP POSITION (300mm of pipework is supplied)

Please indicate your required shower head position on the diagram below.

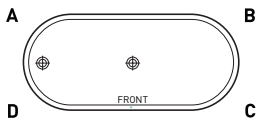

The recommended max. distance between the bath & spa pump is 1.2 metres.

NOTE the spa pump controls CAN NOT be on the same end as the shower head.

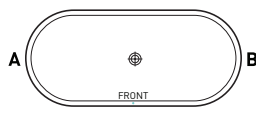

Is the distance between the bath & the spa pump over 300mm? YES NO

If YES how much extra pipework is required _____

Due to limitations in printing and photography processes the products and colours in this brochure are indicative only. Due to ongoing product development Decina reserves the right to vary specifications or delete models without prior notification. Whilst all care has been taken to provide accurate information at the time of print July 2019, Decina takes no responsibility for printing errors or inaccuracies. All dimensions listed are nominal and subject to manufacturing tolerances so may vary by +/-6mm, we therefore strongly recommend installation does not commence until after delivery. All bath litres shown are approx. & measured 200mm below the bath rim.
